PUBLIC NOTICE

PR#0249

July 30, 2007 REQUEST FOR PUBLIC COMMENT ON A DRAFT PERMIT FOR THE MANAGEMENT OF HAZARDOUS WASTE

The Nevada Division of Environmental Protection (NDEP) is requesting public comment on the DRAFT PERMIT (or Remedial Action Plan - RAP) for a remediation waste landfill proposed to be located approximately 13 miles south of the City of Las Vegas in Clark County (Henderson), Nevada. The landfill is situated within the boundaries of the common areas of Basic Management Incorporated (BMI) and is restricted to remediation waste (i.e., soil) excavated or generated as a result of prescribed corrective action at this site and adjacent properties. The DRAFT PERMIT (or Remedial Action Plan - RAP) authorizes Basic Remediation Company (BRC) to manage and dispose of soils contaminated with hazardous constituents regulated by state and federal regulations in accordance with the Resource Conservation and Recovery Act (RCRA). The proposed landfill is designed to receive approximately 3.5 million cubic yards and includes an engineered liner and cover system. The proposed landfill is integral to the overall environmental remediation and restoration strategy selected for the BMI Industrial Complex and adjacent properties. The DRAFT PERMIT would grant approval in accordance with RCRA, Federal regulations 40 CFR Part 124, Nevada Revised Statutes (NRS) 459.000 through 459.600 and Nevada Administrative Code (NAC) 444.842 through 444.960 to the Basic Remediation Company to construct and operate the proposed remediation landfill.

The ADMINISTRATIVE RECORD for the DRAFT PERMIT, which includes the APPLICATION, DRAFT PERMIT, and FACT SHEET, are available for public review during business hours at the addresses below.
